
Perfin Oddities #2

Bob Schwerdt (#505-L)

Here are two U.S. \$5 postage due stamps punched with letters. I don't know if these fit with Bob Szymanski's "Perfin Oddities" or are "Whatizzit?" material. But the latter i(what is it p[are they]?) is really the question. One appears to have the letters ...UISE... and "...SE C..."

[Ed. So, whatizzit (?whatareit?) – these perfin oddities?
